Education

Kiet Group Of Institution   **Aug 2021 – Jun 2025**
B.tech in Computer Science   *Ghaziabad, UttarPradesh*

Professional Experience

Bridge Group Solution   **Feb 2025 – Present**
Software Engineer Intern   *Gurgaon*

- Collaborated with a team to design and develop the BGS website using HTML, CSS, and JavaScript; enhanced UI/UX and SEO, integrated AdSense for monetization, implemented Web3Forms for handling contact and other forms, and deployed the site on Hostinger's shared servers for continuous availability and efficient request handling.
- Contributing to CRM Services by building features using React and state management tools like Redux for efficient data flow and component interaction.

Projects

CollegeSearch - Link | Node/Express, React , Redux, MongoDB, REST Api, Tailwind   **Mar 2024 - Present**

- Implemented OTP-based sign-up via email, enhancing platform security and reducing spam.
- Developed features for one-to-one mentorship, comprehensive college information, meeting booking and cancellation, and seamless payment integration through platforms like Razorpay and Stripe.
- Designed a robust Admin Portal for managing colleges, mentor sessions, course details, and user activities such as likes, wishlists, and transactions.

ShopHere | Reactjs, Redux, ContextApi, REST Api, Auth0 , Git   **Source Code**

- Developed a robust shopping website with 1000+ products, featuring 4+ advanced filters for precise searches by price range, category, color, and company, along with a user-friendly search feature.
- Engineered an intuitive shopping cart system, empowering users to effortlessly perform 3 critical functions: adding, subtracting, and deleting products, all while ensuring real-time automatic subtotal updates.

MemoirMoments | React. js, Redux, Express, MongoDB, REST Api, googleAuth, Git   **Source Code**

- Developed a dynamic platform with engaging features like 'like' counts, comments, and user-generated posts, fostering active user interaction and facilitating content curation.

Technical Skills

Languages: Java, JavaScript, SQL, Html, Css
Libraries / Frameworks: React Js, Redux, React Router, Express, Node Js, Tailwind, Bootstrap
Databases: MongoDB, MySQL, Redis
Developer Tools: Git, GitHub, Docker, REST Api, Chrome Dev Tools, React Developer Tools

Leadership / Extracurricular

- Participated and excelled in over three Model United Nations (MUN) conferences, achieving two wins and honorable mentions at KIET MUN 2023. This highlights my adeptness in diplomacy and strong communication skills.
- Organized bootcamps and events as a key leader in the development domain, connecting with mentors and teaching juniors to foster a culture of knowledge-sharing and technological growth.
- Regularly participated in hackathons, earning special category awards at Gautam Budh University for a resume builder project developed using EJS and JavaScript.
